

Consolette

Premium
Speaker Dock

YOU CAN'T GET ANY CLOSER TO MUSIC

The moment you see it, you know it is something special. The front panel and controls are fashioned from metal and the rear sculpted from genuine walnut wood. The retractable docking tray, Gyro control wheel and selection buttons are all engineered to feel solid and confident. While the elegant porthole and its iconic Marantz starburst confirm that you are in the presence of true craftsmanship.

But that's just the start. When it plays, it doesn't just reproduce high-quality audio, it floods your senses with energy, emotionality, and passion. With 150 watts of power it effortlessly creates a panoramic stereo image that's founded on a rich and deep bass performance. And because the "reference quality" tuning is designed by the legendary Ken Ishiwata, every detail is reflected with pin-point accuracy. It gives you wireless audio streaming from any iOS device or iTunes library as well as Android devices and any other network stored media on your PC, Mac or NAS – either wirelessly or directly. It also gives you both a Line-In and a USB port too. A Premium remote controller is included, but already there is an App for the iDevices and Androids. Everything is in place. Why wait a second more, the audiophile Dock is here and it goes by the name of Consolette.

You can't get any closer to music!

Main Features

- **Balanced Mode Radiator (BMR) Drivers** – Custom designed BMR drivers offer wide uniform dispersion and improved crossover performance
- **Dual High-Performance Bass Drivers** – Two 4" bass drivers deliver a fast and deep bass for an engaging Hi-Fi sound
- **Full Digital Signal Processing and Amplification** – Pure digital PCM signal processing with low distortion ensure an accurate music reproduction
- **Wireless music streaming** from any iPod touch, iPhone or iPad
- **Wireless Music Streaming** – From Android or Windows portable (smart) devices and from any PC/Mac® or NAS (Network Attached Storage) drive
- **Internet Radio** – Built-in internet radio offering you a multitude of free internet radio stations
- **NetLink** – Automatically connects the Consolette to your wireless home network

Specially developed for wide stereo image

The new Marantz Consolelette incorporates two specially developed BMR drivers, which - thanks to their unique 180 degree sound dispersion - help create a wide and stable stereo image. An image that has a clear and fixed position for each musical instrument and vocalist. In addition, unlike almost all other speaker docks the Consolelette has no irritating hotspot: the one spot where stereo imaging is properly balanced. With the BMR drivers, the Consolelette's stereo image is clearly maintained throughout the room, and most people find this an incredible experience from such a compact unit. Even though the left and right speakers are relatively close together, the special BMR drivers create a wide open sound stage.

New Consolelette App

Now you can have the exquisite look and feel of your Marantz Consolelette Premium Speaker Dock right in the palm of your hand.

Premium music player – Browse your iPod library by Artist, Song, Playlist or Album and create new and edit existing Playlists.

All-encompassing music server – Browse and play music files from any PC, Mac or NAS drive connected to your network and from any USB drive or any other portable device.

Easy access to internet radio – Get any of the 70,000+ Internet radio stations worldwide and browse by location, genre, language or podcast.

Fast and easy setup/operation – Full remote control of your Consolelette. Includes NetLink for fast easy integration with your network. Stream music wirelessly to the Consolelette or any other Marantz product.

Design and specifications are subject to change by Marantz without notice.
