

R-8L EIGHT SOURCE HAND-HELD LEARNING REMOTE CONTROL

KEY FEATURES

- **A Wide Range of Applications** – The R-8L can operate virtually any infrared controlled system—from whole-house entertainment to sophisticated home theaters.
- **One Touch to Entertainment™** – When used with a Niles ZR-6 MultiZone System, the R-8L automates and controls the connected audio sources, while adding control of a local TV and a source such as a cable box or satellite TV receiver.
- **Easy Setup** – The R-8L comes preloaded with the wireless codes to operate the Niles ZR-6 MultiZone Receiver, plus many other popular components. It can also learn wireless codes directly from a product's original remote control.

PARTS GUIDE

- 1) **Power Button** Turns the selected source device on or off.
- 2) **Source Select Buttons** Turn the zone on and play the selected source device.
- 3) **Transport Buttons** Used to skip backward, rewind, fast forward, skip forward, stop, pause, or play tracks from the selected source.
- 4) **MENU Button** Displays a menu for the selected source device.
- 5) **Guide Button** Displays the program guide for the selected source device.
- 6) **Vol +/- and MUTE Buttons** Raise and lower the volume level. Use the mute button to completely mute the sound.
- 7) **Extended Function Buttons** Provide additional functionality for advanced features, menus, and guides.
- 8) **Setup Button** Used when configuring the R-8L remote.
- 9) **TV/AUX Button** Provides control of a local television and an additional local source.
- 10) **LIST Button** Displays information from source devices that support this function.
- 11) **INFO Button** Displays the current channel and program information from source devices that support this function.
- 12) **Menu Cursor Buttons** Move the cursor in selected source device menu screens. Press OK to choose the highlighted menu option or to toggle between AM and FM tuner bands.
- 13) **Channel Select and LAST Buttons** Select the next or previous channel and select the next or previous chapter on some DVD players. Press the Last button to recall the last-viewed channel.
- 14) **Exit Button** Exits the selected source device's menu, guide, or program without making a menu selection.
- 15) **Special Function Buttons** Used to select the AM or FM radio bands and for special DVR menu functions. The red button selects the AM radio band; the blue button selects the FM radio band.
- 16) **Direct Access and ENTER Buttons** Directly enter channels (for example: 09 or 31). Press the Enter button to send channel number entry on certain TV models.
