

NEW

Digital Photo Printer

◆ New

Sooner or later, every digital photographer wants great prints -- and with Sony's DPP-FP35 PictureStation™ printer, it can all be done at home without using a PC. Connect your Sony Cyber-shot® camera or other USB-capable<sup>1</sup> camera, and in about 75 seconds you can have a lab-quality prints.

#### — Fast, Cost-effective Color Printing

Sony's compact DPP-FP35 can produce lab-quality color prints quickly, easily and cost-effectively at home, office, even while traveling -- so you never have to take film or media to photo labs to print images, and you always get only the prints you really want.

#### ◆ High Output Speed

Sony has designed highly sensitive print paper for faster output with the dye sublimation process -- and the DPP-FP35 can create a full-sized 4" x 6" print in about 64 seconds from a PC, or about 75 seconds from a direct PictBridge™ connection<sup>1</sup> to a Sony Cyber-shot® camera.

#### — Advanced Dye Sublimation Process

Sony's dye sublimation printers can print 256 shades for each of three dye colors -- cyan, magenta and yellow. All together, that adds up to 16,777,216 distinct colors for each pixel, creating beautiful, vivid color prints. By comparison, a 4-color inkjet printer can reproduce 16 distinct colors for each dot -- and even a high-cost 7-color inkjet printer can reproduce just 128 distinct colors per dot.

#### — Superior Color Gamut

Sony dye sublimation photo printers actually have a superior range of colors compared to conventional silver halide chemical-process photo prints, especially in reds and yellows -- for creating prints with vivid, natural colors that standard film prints can't match

#### — SuperCoat2™ Durability

Sony PictureStation™ printers fuse an incredibly durable protective laminate coating to each print -- protecting the surface from fingerprints, moisture and color fading so color photos can remain bright and beautiful, year after year.

#### — Convenient PictBridge™ Printing

When you connect a PictBridge™ compatible<sup>1</sup> camera to a Sony digital photo printer, you can use the camera's LCD monitor to preview pictures, select the ones to print and start printing. The printer acts as a "slave" under the control of the camera -- and eliminates the need to turn on a computer, download images from a digital camera, and then transfer files to a printer.

#### — Choice of Print Sizes & Types

The Sony DPP-FP35 gives you a choice of ways to share your pictures: borderless 4" x 6", or economical 3-1/2" x 5" size that prints even faster.

#### — Auto-Feed Paper Tray

You can produce up to 20 full-size, full-color prints at a single session without re-loading paper -- a real time-saver when you have lots of shots or want duplicate prints to share with family and friends.

#### — Compact Size

Even with its lab-quality color performance and PC-free printing, the Sony DPP-FP35 Picture Station™ digital printer is compact enough to fit in anywhere -- with a smaller footprint than a standard 8" x 10" photo print.

## Specifications

### General

**Printing System:** Gradations: 8-bit per color-C/M/Y(Approximately 16.7 Million Colors)

**Printing Time:** Approximately 75 seconds via PictBridge™, Approximately 64 seconds via PC

**Image Size:** Printing Sizes: Large Size 4"x6", Medium Size 3 1/2"x5"

### Inputs and Outputs

**USB Port(s):** Input/Output Connects:  
PictBridge: USB Type A PC: USB Type B

### Hardware

**USB Port(s):** USB: (Ver 2.0) Connection for PC or PictBridge-enabled digital camera

### Power

**Power Requirements:** 120-240 Volts AC

### Service and Warranty Information

**Limited Warranty:** One year parts and 90 days labor

### Software

**Operating System Compatibility:**  
Microsoft® Windows® Me, 2000, XP Home, XP Pro

**Supplied Software:** Printer Driver Software, Picture Motion Software for Microsoft® Windows® Operating Systems

### Video

**Format:** JPEG

### Dimensions

**Weight:** 2 lbs, 3 oz (1 KG) without paper tray

**Measurements:** 6 7/8" x 2 3/8" x 5 3/8" (WHD)(175 x 60 x 137 mm) (w/o Paper Tray)

### Supplied Accessories

Cleaning Cartridge  
Paper Tray  
CD-ROM USB Driver  
AC Adapter  
4x6 Print Pack (10 Sheets)

### Optional Accessories

Print Pack (SVM-F40P)  
Print Pack (SVM-F80P)  
Print Pack (SVM-F30L)  
Print Pack (SVM-F120P)

**UPC Code:** 027242692022
