 - 15 Station Presets (10 FM, 5 AM)
 - Count-down Time NAP Button
 - CD Playmore (Shuffle/Repeat)
 - CD-R/CD-RW Playback
 - Extendable Snooze
 - Illumination Light

Features

- FM/AM Digital Tuner lets you choose from a variety of radio programming.
- ▲ ◆ Dual Alarm permits 2 separate wake-up times with individual wake-up settings and also allows you to wake to a CD, the radio or a buzzer
- ▲ ◆ ATS (Automatic Time Set) The correct EST (Eastern Standard Time) has been preset at the factory so just plug in your radio and adjust the time zone if necessary. In the case of a power interruption, the pre-installed Lithium battery maintains the correct time so when the power returns you don't have to re-set the clock.
- ▲ ADST (Automatic Daylight Savings Time) When Daylight Savings Time changes take place in the Spring and Fall each year, there is no need to adjust the clock because the built in calendar recognizes the dates and automatically makes the proper time adjustment.
- No Power No Problem Alarm System uses the pre-installed Lithium battery to maintain clock and alarm operation in the event of a blackout or other power failure.
- ▲ Triple Time Display displays the current time, Alarm A and Alarm B on the easy-to-read LCD display.
- MP3 Connectivity with Built-in Audio Cable allows you to easily connect your MP3 player and have access to all of your music
- 15 Station Presets allows you to set 10 FM stations and 5 AM stations.
- Count-down Time Nap Button allows you to take a short nap and wake up to the radio or buzzer without changing your alarm settings. You can select your favorite nap time of 10, 20, 30, 60 or 90 minutes.
- CD-R/CD-RW Playback¹ Plays CD's burned in either a PC or home recording deck.
- LCD Brightness Control lets you choose between 3 positions: High, Medium or Low (H/M/L), by pressing the snooze button.
- Extendable Snooze gives you the freedom to choose your snooze time instead of having to settle for the standard time intervals of other alarms. Each press of the snooze button adds an additional 10 minutes to your snooze time, up to a full hour.
- Built-in Audio Cable allows for easy connectivity of a digital music player.
- Sleep Timer allows you to fall asleep to the Radio, a CD or a Digital Music Player. You can select how long you want the music to play, choosing between 15, 30, 60 or 90 minutes.
- Illumination Light allows you to adjust the brightness to your taste and environment between 3 settings: High, Low and Off.

Day/Night Function: Time: 12 hour system

Audio

Frequency Range: AM: 530-1710kHz; FM: 87.5-108MHz
