

SOUNDBAR BRACKETS

UNIVERSAL SOUNDBAR-SPEAKER MOUNTING BRACKETS

PATENT PENDING

Universal Soundbar Mounting Brackets give the ability to attach a soundbar or surroundbar speaker (above or below) directly onto a Plasma or LCD TV instead of mounting it to the wall. This is most useful when the TV is hung in a corner or on an articulating mount where mounting the soundbar directly onto the wall is not desired. The soundbar brackets are bolted into the mounting holes on the back of the TV. Can even be used if the TV is being left on it's stand.

SBB-U

FEATURES
